PROFESSIONAL SUMMARY

PGDM candidate at Fortune Institute of International Business (FIIB), New Delhi, specializing in Operations with a minor in International Business. Experienced in validating high-visibility election data at Kantar for Google's Election Intelligence project and leading a 2-member analyst team. Skilled in data validation, MIS reporting, dashboard building, and process improvement, with working knowledge of MS Excel, Power BI, Google Looker Studio, and Python, supported by Lean Six Sigma training. Seeking an entry-level role in operations, business process improvement, or data analytics where analytical rigor, data hygiene, and stakeholder communication drive measurable impact.

EDUCATION

Post Graduate Diploma in Management (PGDM) Fortune Institute of International Business (FIIB), New Delhi CGPA: [6.91]	2025 – 2027
Bachelor of Science (B.Sc.) Raja Mahendra Pratap Singh State University, Aligarh CGPA: [7.51]	2021 – 2024

CERTIFICATIONS

- Lean Six Sigma Basics for Process Improvement (EDUCBA/Coursera)
- Power BI Microsoft (LinkedIn Learning)
- Data Visualization and Dashboards with Excel and Cognos (IBM/Coursera)

WORK EXPERIENCE

Corporate Internship Programme Kantar India, Kalkaji, New Delhi - Validated live election data round-by-round as a Research Analyst, cross-checking Election Commission of India (ECI) records against entered data to identify and resolve discrepancies. - Led a 2-member analyst team as Team Leader, reviewing validation work, assigning tasks, and ensuring on-time completion of multi-round validation activities.	(Apr 2026 – Jul 2026)
Social Internship Programme Sakshi NGO, Lajpat Nagar, New Delhi - Delivered 100% data accuracy on a UNSDG 5-aligned household survey by executing structured field operations across 200+ households, enabling the NGO to report reliable outcomes to stakeholders. - Sustained zero-error case reporting over a 10 days engagement by independently managing 3 concurrent field cases, giving coordinators accurate data for faster decision-making.	(Jan 2026)

KEY PROJECTS

AI Election Intelligence Dashboard Kantar India - Improved dataset reliability by resolving missing values, duplicate records, and inconsistent formatting across a real-world government fleet inventory dataset. - Built a prototype dashboard enabling a direct data fetch from the ECI website, reducing per-round validation time from 2–5 minutes to 20–30 seconds, developed with AI-assisted coding tools, with code available on GitHub	
Capacity Planning for a Growing Hospital Advanced Operations Management - Pinpointed Radiology (97.5%) and OPD (92.5%) as critical capacity bottlenecks by analysing departmental utilization using the Theory of Constraints. - Proposed a phased hybrid capacity-expansion strategy, projected to ease immediate congestion while supporting long-term growth.	

KEY ACHIEVEMENTS

- Progressed from Research Analyst to Team Leader on the Kantar–Google Election Intelligence project, taking ownership of a 2-member analyst team.
- Won the Inter-kabaddi tournament trophy at FIIB’s Rangbhoomi as vice-Captain, leading match-day strategy for a 11 members team.

POSITIONS OF RESPONSIBILITY

Vice Captain, Kabaddi Team FIIB Led team planning and on-ground execution for a 11 members team, coordinating practice sessions and match-day strategy that won the Kabaddi Tournament Trophy at Rangbhoomi.
